PHYSIO POSTURAL BACKRESTS

PROGEO, leader company in active wheelchairs production, adds to its wide range of products “Physio”, an innovative trunk postural system. “Physio” stands out for its own exclusive and elegant design that has always characterised PROGEO’s products and company’s style. The innovative adjustment system facilitates its assembly and makes it suitable to every kind of wheelchair. Thanks to its wide range of shells, it will be possible to customize the system through singling out the most suitable anatomical shape for each user and thus ensuring the best support and comfort.

PHYSIO 7.5

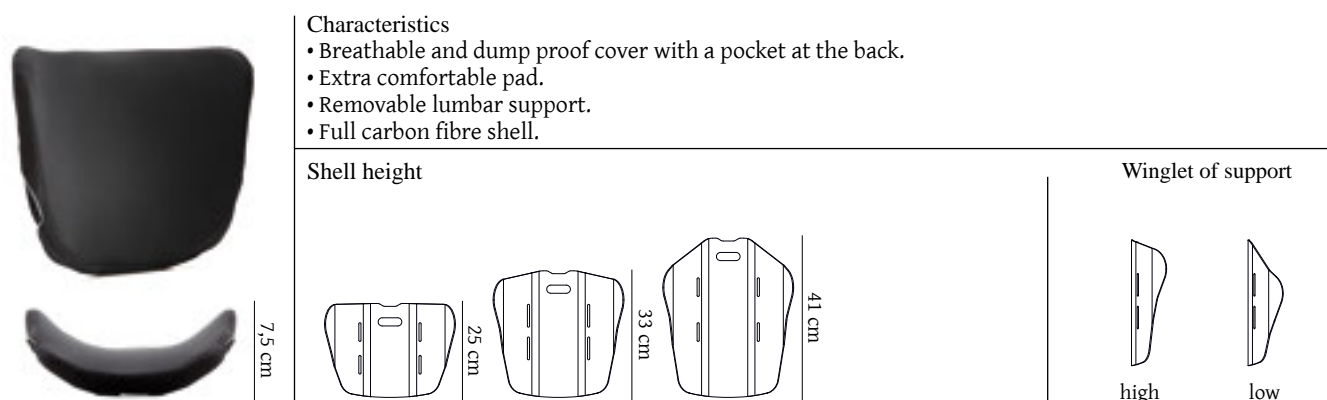

Designed to offer maximum stability as well as to ensure the best posture on the wheelchair. A very new concept of postural system with an elegant design that appeals the active users.

Ideal for wheelchairs from 27 to 48 cm wide (for sizes and configurations, consult the technical order form).

PHYSIO 7.5 CARBON

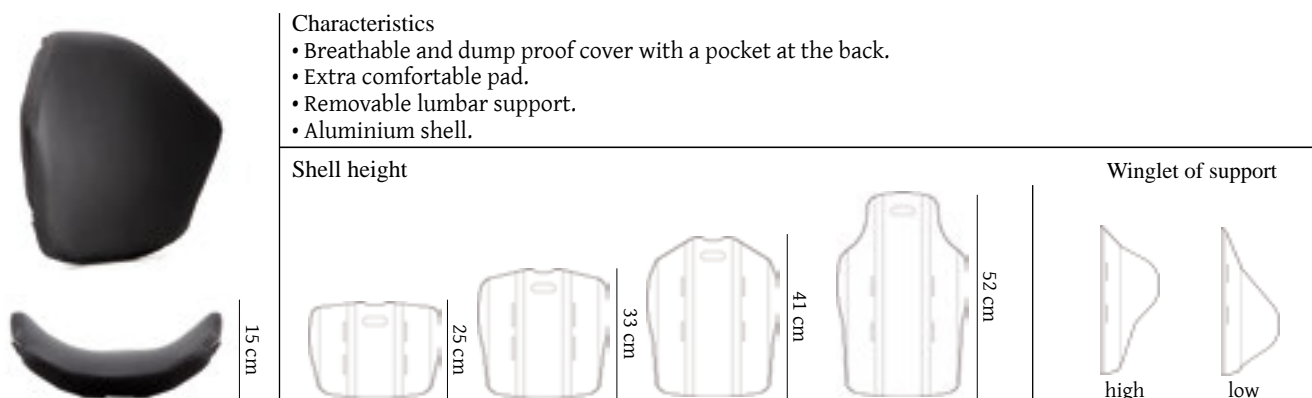

Designed for more active and demanding users. Extremely light, excellent design.

Ideal for wheelchairs from 30 to 48 cm wide (for sizes and configurations, consult the technical order form).

PHYSIO 15 DEEP

A shaped backrest that offers a greater lateral support. The wide range of configurations allows for the best comfort and support.

Ideal for wheelchairs from 27 to 48 cm wide (for sizes and configurations, consult the technical order form).

PHYSIO

The Physio's cover is designed with the latest generation fabrics combine the main characteristics of high resistance to wear and tear with those of best breathable materials. Furthermore, such fabrics are also hypoallergenic, non-toxic and fire proof.

The cover also includes a pocket for personal belongings, a handle, a light-reflecting edge (useful to make the wheelchair visible in urban situations with little or no light) and vanity flap (not included) fixing point.

25 mm thick high density urethane foam pad. Lumbar support to be inserted between the cover and the pad. Polyethylene adhesive tape to be cut and stuck to the foam where more support is necessary.

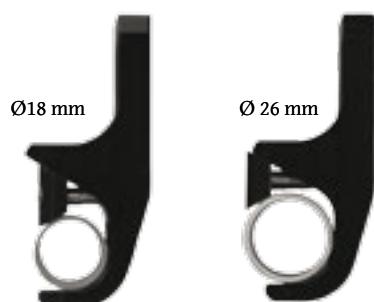

Swing-away laterals
Swing-away thorax supports, available in two sizes (17.5 x 11.5 and 14 x 9.5 cm) with wide range of adjustment in height, depth and sideward. Simple, strong and reliable system.

Physio headrest
Multi-adjustment double ball system to position the pad as desired; available with two contoured pad widths (28 and 34 cm).

Harness

The clamp

An outstanding system suitable to most wheelchairs in the market today. The clamp are universal and can adapt themselves to canes with from 18 to 26 mm.

Hardware

It is vital that the installation of the hardware is easy. Physio gives an excellent answer to all the adaptations and adjustment possibilities with a very simple assembly system.

Lock lever

Easy-to-operate, it safely locks the backrest to the wheelchair.

Depth and angle adjustment plate for 25 and 33 cm high shells.

Angle adjustment: from + 18° to - 18° with relation to the backrest tubes.

Depth and angle adjustment plate for 41 and 52 cm high shells – it ensure high resistance against the flexion of the backrest.

Depth adjustment: positioning with continuous adjustment from -4 cm to + 6 cm with relation to the backrest tubes' axle

The company reserves to make changes and improvements without notice. It also reserves the right of total or partial reproduction. All wheelchairs shown in this catalogue are not necessarily photographed in standard configuration.
